Spring Lake Improvement District  
 Utility Rates and Fees Fiscal Year 2022  
 Effective December 1, 2022

- I. **One Time Water and Wastewater Utility Capacity Fees** – All new service connections occurring within the district shall pay the following water and/or wastewater capacity fees according to the following water and wastewater capacity fee schedule.

A. **Water and Wastewater Residential Capacity Fees:**

Meter Size 3/4 x 5/8	ERC	Meter Setting Charge	Water Capacity Fee	Wastewater Capacity Fee	Total Water & Wastewater Fee
Single Family	1.0	\$470.00	\$3,180.00	\$2,150.00	\$5,800.00

B. **Non-Residential Water and Wastewater Capacity Fees**

Notwithstanding the foregoing schedule, the meter equivalents of a nonresidential use shall be determined by the designed flow serving any structure, building or group of buildings as determined by chapter (FAC) 64E-6.008 Table 1. Equivalent Residential Connections (ERC) are used for the calculations of water and wastewater service capacity fees for the nonresidential establishment that utilizes a one (1) inch or greater meter size.

It has been established that 172 gallons per day is equal to (1) one ERC by the Florida Rural Water Association.

Example:

Based on FAC 64E-6.008 design flows. The formula used is: Total GPD divided by 172 GPD (1 ERC). It equates to the number of ERCs. Therefore, the Total ERCs X \$5,330.00 (water 3,180 + wastewater \$2,150) would determine the Total Capacity Fees for water and wastewater services. This does not include Meter Setting or Fire Protection Fees.

Meter Size Non-Residential	Meter Setting Fee Charge (Single Service)
1"	\$658.00
1.5"	\$2,350.00
2"	\$3,760.00
